PROFESSIONAL SUMMARY

Computer Science and Artificial Intelligence undergraduate with hands-on experience across Machine Learning, Generative AI, and full-stack web development through three internships and multiple applied projects. Proficient in Python, Java, SQL, and REST APIs, with practical exposure to ML model development, NLP, prompt engineering, and data analytics workflows (Forage job simulations with Deloitte and Tata). Experienced in building and deploying full-stack applications using React, Spring Boot, and MySQL. Strong foundation in data structures, OOP, and DBMS, with a track record of translating requirements into functional, measurable solutions in collaborative engineering environments.

TECHNICAL SKILLS

Languages: C, Java, Python, SQL, HTML, CSS

Libraries & Frameworks: NumPy, Pandas, Matplotlib, Scikit-Learn, Streamlit, Flask, React.js, Spring Boot, FastAPI

Tools & Platforms: Google Colab, VS Code, Jupyter Notebook, Git, GitHub, Render, Netlify

Databases: MySQL

Core Concepts: Data Structures, Object-Oriented Programming, Machine Learning, NLP, Prompt Engineering, REST APIs, Data Preprocessing & Pipelines, DBMS

INTERNSHIP EXPERIENCE

Machine Learning Intern | Edunet Foundation

May 2025 - Jul 2025

- Implemented 8+ supervised and unsupervised ML models on 5 real-world datasets, improving prediction accuracy by up to 18% through feature engineering and hyperparameter tuning.
- Processed 15,000+ data records using NumPy and Pandas, reducing preprocessing time by 40% and improving model performance.

Generative AI Intern | Saredufy Web Plus Academy Pvt Ltd

Jun 2025 - Aug 2025

- Developed and deployed an AI-powered Birthday Message Generator supporting 10+ message themes with real-time response generation in under 2 seconds.
- Designed application logic and UI for dynamic, context-aware text generation, integrating AI capabilities into a functional user-facing application.

Web Developer Intern | ApexPlanet Software Pvt Ltd

May 2025 - Jul 2025

- Developed 5+ responsive webpages achieving 100% mobile compatibility and reducing page load time by 30%.
- Collaborated within a team environment to translate design requirements into functional front-end components.

PROJECTS

Citizen360 — Civic Management System | Personal Project | Full-stack development

- Built a civic complaint management system using React, Spring Boot, and MySQL featuring automated complaint classification, secure authentication, an admin dashboard, and real-time complaint tracking.

Aqua Tracker App | Personal Project | Application development

- Designed and developed an Android water-intake tracker with hourly reminders, daily/weekly analytics, and support for 3.2L personalized hydration goals.

Movie Recommendation System | Edunet Foundation | ML/NLP

- Developed a movie recommendation system using the TMDB dataset (1M+ records) with TF-IDF and Cosine Similarity, generating Top-10 personalized recommendations in under 1 second.

EDUCATION

B.Tech in Computer Science and Artificial Intelligence

2023 - 2027

Madanapalle Institute of Technology & Science, Angallu | CGPA: 8.25 (through 6th Semester)

Diploma in Computer Engineering (CME)

2021 - 2024

Government Polytechnic, Proddutur | Percentage: 87.25%

Secondary School Certificate (SSC)

2017 - 2021

LOYALA E M SCHOOL, Dharmavaram | CGPA: 9.3

CERTIFICATIONS

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
- Artificial Intelligence Fundamentals – IBM
- Python – Kaggle (Certificate of Completion)
- Deloitte Australia – Data Analytics Job Simulation (Forage)
- Tata – GenAI Powered Data Analytics Job Simulation (Forage)
- AWS Academy Graduate - Cloud Foundations
